NOTICE

Subject: "Java training program for campus interviews".

Siddhivinayak Technical Campus Shigam is organizing a five-day (30-hour) add-on program that will start on Tuesday, **January 02, 2024**.

The title of the programme is "Java Training Programme for Campus Interviews". Companies across the globe use Java to build the applications and websites they offer their consumers. Java's role extends to data science and machine learning, increasingly sought after by companies seeking advanced automation. Java is a robust language, meaning that it is designed to handle errors and exceptions gracefully. Google has a large number of products and services built with Java, including Google Docs, Google Maps, and Android OS. One of the main benefits of Java is that it is platform-independent, meaning that it can be run on any operating system.

All the students of *BE third and final year, all branches*, are hereby informed to attend the programme and register themselves on or before January 24.

Program details are:

- Title of program: "Java training program for campus interviews".
- Program type: Add-on program
- Date: **January 2-6, 2024 (Tuesday to Saturday)**
- Mode of training: Off line
- Venue: AG-02 (Block A) and Computer Labs

NOTICE

Subject: "Electric Special Machines for Multipurpose Application".

Siddhivinayak Technical Campus Shegaon is organizing a Six-day (30-hour) add-on program that will start on **Monday, 29 January to 02 February 2024**, under the EESA Committee. The title of the programme is "**Electric Special Machines for Multipurpose Application**". *Using the wrong motor will be inefficient at best, and unworkable at worst. On the other hand, not every design requires a high-end motor, and exceeding specifications can result in excessive costs. When fewer models of motors can be used for more applications, the result is improved efficiencies in design, procurement, and maintenance. While very specialized motors can be selected to meet the environmental and application conditions, many users find that a few models of multi-purpose motors can satisfy many applications.*

All the students of Poly & Engg. **BE third and final year, EE Branch**, are hereby informed to attend the programme and register themselves on or before January 18.

Program details are:

Description	<p>In House "" Guest Lecture on Emerging Technologies in ICT" organized by Computer Science and Engineering Student Association (CSESA) and Computer Science and Engineering department in the college premises to facilitates and encourages research culture among the faculty and students from 15 April 2024 in the presence of Principal Dr. Anant G Kulkarni, Head of department Prof. Yogesh Katole and CSE staff members Prof. Shweta Rathod, Prof. Gaytri K More. , Prof. Pratiksha Mhasal. The workshop was executed successfully under the guidance of Dean Prof. Dhiraj Wankhede.</p> <p>This study is more related to identifying the perceptions in implementing ICT tools in teaching and learning in the classroom among school teachers. Furthermore, it examines the challenges of using ICT tools in teaching and learning in the classroom among school teachers and recognizes the effectiveness of the extent of ICT tools in supporting classroom teaching and learning. Based on the study the findings indicate that average level of the perceptions in implementing ICT tools in teaching and learning in the classroom among school teachers, high level of challenges of using ICT tools in teaching and learning in the classroom among school teachers and recognizing the effectiveness of the extent of ICT tools in supporting teaching and learning in the classroom.</p>

Title	“CROWDED CAFES EMPTY LIBRARIES”		
Organized by	Internal Quality Assurance Cell (IQAC)		
Academic Year	2023-2024	Program Type	Workshop
Start Date	16 May 2024	End Date	16 May 2024
Program Theme	Changing Study Habits, Social Spaces vs. Silent Spaces, Comfort and Accessibility, The Role of Technology, Redefining Libraries for the Modern Era, Impact on Learning and Community, Cultural and Psychological Factors, Future of Public Learning Spaces		
No. of Students Participated	0	No. of Faculty Participated	19
No. of External Participants	0	Mode of Session	Offline
Objective	<ul style="list-style-type: none"> ➤ Identify Changing Preferences: To understand why cafes are becoming preferred study and workspaces compared to libraries, focusing on environmental, social, and convenience factors. ➤ Evaluate the Impact on Learning and Productivity: To assess how the choice of workspace (cafe vs. library) influences focus, retention, productivity, and overall learning outcomes. ➤ Analyze the Role of Technology: To explore the technological needs (Wi-Fi, charging points, etc.) and how they contribute to the shift towards cafes over libraries. ➤ Examine Social and Cultural Influences: To investigate the role of social interaction and cultural trends that make cafes more appealing as workspaces than libraries. ➤ Propose Improvements for Libraries: To develop strategies and propose design or policy changes that could make libraries more attractive to modern students and professionals, integrating aspects of cafes that contribute to their popularity. 		
Benefits in terms of Learning/ Skill/ Knowledge Obtained	Participants will gain a deeper understanding of the reasons behind the growing preference for cafes over libraries, including how different environments impact productivity and focus. They will develop awareness of the social and cultural factors influencing workspace choices and learn how to effectively use technology in both settings. Additionally, they will explore strategies for revitalizing libraries, making them more appealing and user-friendly for modern learners. The comparative analysis of cafes and libraries will help attendees make more informed decisions about where to work or study, enhancing both their learning experiences and productivity.		
Professional speaker	Mr.Amrut Deshmukh		
Description	<p>On May 16, 2024, the online workshop “Crowded Cafes, Empty Libraries” was held at 1:00 PM in AG-02, led by Mr. Amrut Deshmukh, a chartered accountant and TEDx speaker.</p> <p>The workshop explored the rising preference for cafes over libraries for study and work. Discussions covered changing study habits, the contrast between</p>		

	<p>social and silent spaces, and the importance of comfort and accessibility. Mr. Deshmukh emphasized that while cafes provide a vibrant atmosphere with amenities like Wi-Fi and food, libraries struggle to attract users due to their formal setups.</p> <p>The session underscored the need for libraries to adapt by incorporating elements that make cafes appealing, ensuring they remain relevant in today's educational landscape. Overall, the workshop provided valuable insights into the future of public learning spaces.</p>
Conclusion	<ul style="list-style-type: none"> ➤ Comprehensive Insight: Participants gained a deep understanding of the shifting preferences towards cafes as favored study and work environments. ➤ Expert Exploration: Led by Mr. Amrut Deshmukh, attendees delved into the key factors that make cafes appealing, including their vibrant atmosphere, flexibility, and accessible amenities. ➤ Identifying Challenges: The workshop highlighted the challenges that traditional libraries face in attracting users due to their more formal and structured settings. ➤ Call for Evolution: Discussions underscored the necessity for libraries to evolve and integrate popular elements from cafes to enhance their relevance and appeal. ➤ Engaging Dialogues: The session fostered valuable conversations about innovative strategies for improving public learning spaces to meet the needs of modern learners. ➤ Future Relevance: Participants left with actionable insights aimed at ensuring libraries remain effective and inviting environments for study and collaboration. ➤ Inspiration for Innovation: Attendees were encouraged to think creatively about revitalizing libraries and adapting to the changing landscape of learning environments. ➤ Continued Engagement: Appreciation was expressed for attendees' participation, along with an invitation to join future discussions focused on the evolution of public learning spaces.

N. Event 14- Student Capability Enhancement & Development

Program

Title: Student Capability Enhancement & Development Program

Objectives:

- To assist students to develop / clarify their academic and career interests, and their short and long-term goals through individual counseling and group sessions
- To assist students for industrial training at the end of the fourth and sixth semester.
- To provide resources and activities to facilitate the career planning process.
- To assist students in obtaining placement in reputed companies.
- To prepare students for job opportunities in government sectors and off campus drives.

Context:

There is rigid requirement for Student Capability Enhancement & Development Program as majority of students in institute are from rural area and they lag in Communication skill, Aptitude, Public Speaking, Presentation Skill, Leadership quality, etc. Our institute organized Aptitude and ability tests to students from the starting of course establishing better buildup of confidence, communication skill and character required for placements in reputed companies. **Practice:**

Aptitude and ability tests are designed to assess the logical reasoning or thinking performance of students. Under T&P, faculty conduct aptitude classes every week for one day at 3:15 PM for all third- and final-year students. After completing classes, they take an aptitude test. A test consists of multiple-choice questions and is administered under exam conditions. They are strictly timed, and a typical test might allow 30 minutes for 30 questions. Test results will be compared to those of a control group so that judgments can be made about the students' abilities. Students may be asked to answer the questions either on paper or online. Aptitude and ability tests can be classified as speed tests or power tests. In speed tests, the questions are relatively straightforward and the test is concerned with how many questions you can answer correctly in the allotted time. Speed tests tend to be used in selection at the administrative and clerical levels. A power test, on the other hand, will present a

smaller number of more complex questions.

Evidence of Success:
